To make the most of hotel, Chuan Spa's management team recommend scheduling a visit to the spa to try a new BABOR collagen-boosting anti-ageing facial.

It's the ultimate treat for your skin and it's a real glow-getter. The facial features a relaxing scalp massage while a highly effective enzyme peel works its magic. Spa devotees report that their skin feels intensely hydrated afterwards and comment that they have a leaner-looking and redefined chin and neck area as well. This facial is Chuan Spa's most luxurious, complexion-enhancing facial, explains Chuan Spa's team.
